

STANLEY SAFARI LODGE

LIVINGSTONE • THE VICTORIA FALLS • ZAMBIA

The Main House has been designed with space and views in mind. Enjoy sundowners in the African style lounge, French cuisine with an African twist in the dining room or spend some quiet time in the library or upper deck discovering the secrets of Africa. This house has a truly African feel, while the colonial suites evoke the elegant era of Stanley and Livingstone and have private pools, airconditioning and other luxuries.

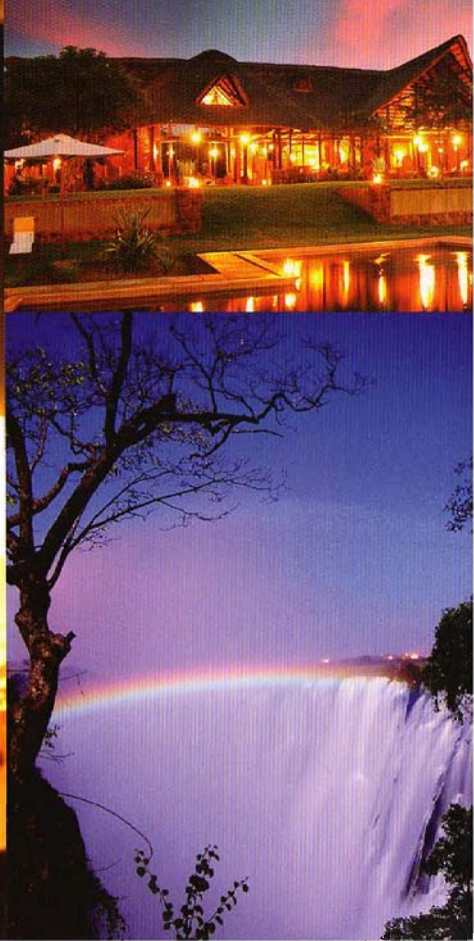

The rooms are designed to allow you to enjoy the sights of the African bush. In the open ones, the sounds and smells overwhelm all your senses too.

In the romantic Honeymoon Suite you can enjoy long and intimate fireside dinners, dips into your own private plunge pool, spend hours on the deck watching the birds and animals - and you can even shower together in the unusual double shower.

The Family Suite with its private splash pool and garden, plus a cosy lounge for relaxing, is the perfect retreat for families.

Enjoy wine tasting evenings or candlelit dinners in Stanley's delightful wine cellar, which offers a cool escape from the African heat.

From almost every room at Stanley Safari Lodge you can see distant views of the mighty Victoria Falls. Set on a hill overlooking unspoilt bush, Stanley is a perfect base from which to explore the delights of the area - from river rafting and bungee jumping to sunset cruises and elephant-back safaris. If you time your visit with the full moon, you may even get to see a lunar rainbow cast its spell over the seventh wonder of the world.

You can dine outdoors under the stars, in the privacy of your suite or even in the infinity pool. The African style and furnishings of the lodge reflect the textures and patterns of Africa, and your hosts here will do their best to make your stay a memorable one.

Quiet and intimate, Stanley Safari Lodge will tailor make your stay to suit you.

It doesn't get more romantic than this in the Honeymoon Suite - crisp white linen, views of the spray from the falls and your own private pool. Even the loo has a view!
